Who We Are?

Our Aim

Who We Are?

Temizoda Marketi started its business life in 1995 with İNŞEL Yapı ve Teknik Donatım Sistemleri Ltd. Sti. Specializing in cleanroom consultancy, design, implementation, documentation, and training, İNŞEL aims to meet the needs of personnel working in cleanrooms, sterile areas and critically controlled areas when it aims to provide turnkey services in the projects it implements.

İNŞEL, which has started to supply consumables in Cleanrooms, sterile areas and critically controlled areas through its representatives since 2004, has separated this department from its body in time in order not to cause confusion for our valued customers and to provide better service led to creation of Temizoda Marketi Laboratuvar Ürünleri A.Ş.

Today, as Temizoda Marketi, we are always with you, our valued customers, from product selection to training with our professional and experienced staff, while following the technology closely to provide you with the best service in the most accurate way.

Our Aim

As Temizoda Marketi, we know our valued customers from the very beginning, from the installation of your hygienic area and Cleanrooms, and we know your needs. We are aware of how important it is to use the right material in the right place, and we are always at your side to supply you with the best quality and right products with the most appropriate solutions. We supply the highest technology products for you, and we are with you wherever you need, from training to after-sales user Support.

We know that choosing the right product is never the cheapest or the most expensive, and at this point, we help you with the most optimum benefit options...

Why Temizoda Marketi?

We know you; we know your needs and we are here to help you in the best way

As Temizoda Marketi, we try to get to know you first and learn about your business, processes, and needs and offer you the most suitable solutions.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

Choosing the right product is one of the most important issues in cleanrooms and critically controlled areas.

As Temizoda Marketi, we choose the most accurate and best quality products for your business in line with your demands and goals and recommend them by making them economical.

The materials used in critically controlled areas are as special and important as the areas you work in.

We know that the most suitable product for you is not always the most expensive or the cheapest, but it should be the best quality. In order to offer you the optimum solution, as Temizoda Marketi, we offer you the products you need by diversifying them with alternatives from different brands.

As Temizoda Marketi, we know the importance of the documentation of all materials you use in critically controlled areas, and we provide all documents, certificates, analysis reports, and all necessary documentation for you, that are necessary, during the installation phase, application and validation.

Temizoda Marketi does not only approach you as a product supplier. At the same time, it stands behind the products it sells and does not hesitate to take all necessary actions to eliminate it when you have any problems.

It does not sell products without the full support of the companies it represents. When there is a problem about the products, Temizoda Marketi approaches the issue as if using it himself and ensures that it is resolved as soon as possible. Thus, you will get maximum efficiency from the product you have bought.

As Temizoda Marketi, we would like to help you with all the products you need with our wide product range. Even if the product you need does not appear in our catalog, we try to find the product you are looking for with our partners abroad. Thus, we provide you with one-stop service as sole responsibility.

Temizoda Marketi does not only supply you with products, but also provides training, which is one of the greatest necessities of our time. No matter how accurate the product is in critically controlled areas, incorrect or unconscious use can cause unwanted problems. Upon request, it provides the necessary training for the products you have purchased, either by itself or by the manufacturer.

Our Representatives

We are working with well-established companies that have proven their quality all over the world in auxiliary products used in clean rooms, sterile areas, laboratories and other critically controlled areas, to provide you with the best and right product.

STERILE

Isofiled Exa 230 has ear loops with a clip. It consists of spunbonded polyester on the outside and non-woven polypropylene / polyethylene on the inside. The filter is made of non-woven meltblown polyester.
Disposable

STERILE

Isofiled Tera 230 has straps to tie. It consists of spunbonded polyester on the outside and non-woven polypropylene/ polyethylene on the inside. The filter is made of non-woven meltblown polyester.
Disposable

Isofiled Zetta 230 mouthguard has tie straps and an enclosed deformable nose strip made of . It consists of non-woven polypropylene/ polyethylene on the outside and inside. The filter is made of non-woven meltblown polypropylene.
Disposable

Isofield Peta 230
ISO Class 5 compatible
Non-Sterile
230mm length with enclosed malleable nose strip

The **disposable face mask** has 4 layers and is reinforced with a hexagonal polyethylene mesh. The splash-proof and anti-fog mask consists of a layer of polyethylene mesh and three layers of non-woven fabric, which is folded into a "sandwich". Each layer is structured differently depending on the specific function it performs.
In addition, on the inside of the upper part, a strip of soft polyethylene is integrated, which makes the contact with the face feel particularly soft, like a cushion between the wearer's face and the mask. This prevents the warm air inside the mask from rising. This emerges on the sides of the mask and thus creates an anti-fog effect that prevents glasses and goggles from fogging up.

Particulate filter mask FFP2 NR "20-21"
This particle filtering respirator meets the requirements of the European standard EN 149:2001 + A1:2009 and is designed to ensure respiratory protection for the wearer. This 4-layer respirator has a filter efficiency of at least 94% against particles. With nose clip and ear loops.

The **Segre F31000** is a fully adjustable FFP3 respirator. The adjustable straps guarantee a perfect fit.

The **Particle Filtering FFP2** respirator is naturally antibacterial, which prevents the formation of bad odours. In combination with the meltblown fleece in the intermediate layer, the new type of bamboo respirator will be able to protect the wearer from most viruses and bacteria.

RR 55/45"
Disposable Well-ventilated Cleanroom Face Mask (Disposable Face Mask). Elastic ear band; soft, well suited for long periods of wear. Automatically manufactured and packaged in a class 1000 clean room.

Well-ventilated disposable non-woven face mask for cleanrooms. Specially designed non-woven material for the body and elastic cotton ear loops. Between the inner and outer layers there is a micro-denier filter that filters out more than 95% of 0.5 µm particles.

The **"disposable beard guard"** consists of polypropylene spunbonded non-woven fabric and has 2 latex-free rubber bands. This is suitable for simple care and hygiene.

The **"Disposable Mouthguard Med-Comfort"** is a 3-layer, green mouthguard with elastic bands. The flexible nose clip allows for a perfect fit.

Disposable Mouthguard Med Comfort is a 3-layer green mouthguard with a glass fiber-free filter medium. This has a perfect fit with ear rubbers and a flexible nose clip.

BCR® Cleanroom Face Mask
3-Layer design cleanroom masks
100% Polypropylene construction
Filter media: Melt blown polypropylene which provides superior particle and bacterial filtration efficiency
Soft and comfortable knitted nylon spandex ear loops
Fully enclosed vinyl covered steel nose piece to help reduce "blow by"

Choice® 3-Layer Mask
3-Layer Earloop Cleanroom Masks
Bulk packaged—not individually wrapped in the pack
Filter medium: polypropylene providing excellent filtration
Fully enclosed nosepiece—adjustable, vinyl covered steel reduces "blow by"
Polyester earloop provides comfort to wearers
