Who We Are?

Our Aim

Who We Are?

Temizoda Marketi started its business life in 1995 with İNŞEL Yapı ve Teknik Donatım Sistemleri Ltd. Sti. Specializing in cleanroom consultancy, design, implementation, documentation, and training, İNŞEL aims to meet the needs of personnel working in cleanrooms, sterile areas and critically controlled areas when it aims to provide turnkey services in the projects it implements.

İNŞEL, which has started to supply consumables in Cleanrooms, sterile areas and critically controlled areas through its representatives since 2004, has separated this department from its body in time in order not to cause confusion for our valued customers and to provide better service led to creation of Temizoda Marketi Laboratuvar Ürünleri A.Ş.

Today, as Temizoda Marketi, we are always with you, our valued customers, from product selection to training with our professional and experienced staff, while following the technology closely to provide you with the best service in the most accurate way.

Our Aim

As Temizoda Marketi, we know our valued customers from the very beginning, from the installation of your hygienic area and Cleanrooms, and we know your needs. We are aware of how important it is to use the right material in the right place, and we are always at your side to supply you with the best quality and right products with the most appropriate solutions. We supply the highest technology products for you, and we are with you wherever you need, from training to after-sales user Support.

We know that choosing the right product is never the cheapest or the most expensive, and at this point, we help you with the most optimum benefit options...

Why Temizoda Marketi?

We know you; we know your needs and we are here to help you in the best way

As Temizoda Marketi, we try to get to know you first and learn about your business, processes, and needs and offer you the most suitable solutions.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

Choosing the right product is one of the most important issues in cleanrooms and critically controlled areas.

As Temizoda Marketi, we choose the most accurate and best quality products for your business in line with your demands and goals and recommend them by making them economical.

The materials used in critically controlled areas are as special and important as the areas you work in.

We know that the most suitable product for you is not always the most expensive or the cheapest, but it should be the best quality. In order to offer you the optimum solution, as Temizoda Marketi, we offer you the products you need by diversifying them with alternatives from different brands.

As Temizoda Marketi, we know the importance of the documentation of all materials you use in critically controlled areas, and we provide all documents, certificates, analysis reports, and all necessary documentation for you, that are necessary, during the installation phase, application and validation.

Temizoda Marketi does not only approach you as a product supplier. At the same time, it stands behind the products it sells and does not hesitate to take all necessary actions to eliminate it when you have any problems.

It does not sell products without the full support of the companies it represents. When there is a problem about the products, Temizoda Marketi approaches the issue as if using it himself and ensures that it is resolved as soon as possible. Thus, you will get maximum efficiency from the product you have bought.

As Temizoda Marketi, we would like to help you with all the products you need with our wide product range. Even if the product you need does not appear in our catalog, we try to find the product you are looking for with our partners abroad. Thus, we provide you with one-stop service as sole responsibility.

Temizoda Marketi does not only supply you with products, but also provides training, which is one of the greatest necessities of our time. No matter how accurate the product is in critically controlled areas, incorrect or unconscious use can cause unwanted problems. Upon request, it provides the necessary training for the products you have purchased, either by itself or by the manufacturer.

Our Representatives

We are working with well-established companies that have proven their quality all over the world in auxiliary products used in clean rooms, sterile areas, laboratories and other critically controlled areas, to provide you with the best and right product.

GuardTack 1- Access Mat medium Tack Non-Sterile
The high-purity super microfiber enables streak-free cleaning of smooth surfaces.

Usage

Access mat designed to capture contamination from traffic before entry into a controlled area such as

- Inside/outside cleanroom areas
- Air showers
- Gown rooms
- Entry hallways

Benefits

- 30 Individually numbered LDPE peel-off sheets per contamination control mat.
- Medium "Tack" formulation gives a higher level of dirt capture than GuardTack 2 whilst not inhibiting free movement.

Product Information

Product Description

Entry mat designed to capture contamination from foot traffic before entry into controlled area.

Product Features

30 Individually numbered LDPE peel off sheets per contamination control mat.
8 mats per pack.

Medium "Tack" formulation gives a higher level of dirt capture than GuardTack 2 whilst not inhibiting free movement.

Available in 3 sizes and up to 3 colours.

Packaging

Each mat is individually wrapped in a polythene wrapper.
Shipped in robust cardboard outer packaging.

Quality Assurance

Product supplied under BS EN ISO 9001 registered systems.

Shelf Life

2 year from date of manufacture.

Storage Conditions

Store in a dry, well-ventilated area in ambient conditions.
Store flat and do not bend.

ORDER INFORMATION

GuardTack 3- Blue Walk Access Mat Washable Non-sterile

Usage

- Washable, high performance contamination control mat for use with medium traffic loads.
- Specially designed and manufactured to capture, retain and reduce foot and wheel-borne viable and non-viable particulates, over an extended period of time.

Benefits

- Installed by trained service technicians.
- 3-5 year in service life.
- Silver based antimicrobial embedded into the surface.
- Max 1000kg per mat area.

Product Information

Product Description

Washable, high performance contamination control mat for use with medium traffic loads. Specially designed and manufactured to capture, retain and reduce foot and Wheel-borne viable and non-viable particulates, over an extended period of time.

Product Features

Installed by trained service technicians 3-5 year in service life. Silver based antimicrobial embedded into the surface. Max 1000kg per mat area. 2 mm overall thickness.

Manufacturing

Manufactured by noopli with batch traceability.

Antimicrobial Specification

Silver phosphate glass (cas 308069-39-8) embedded in the polymeric flooring.

Packaging

Shipped in industrial cardboard tube.

Service Life

3 - 5 years

Storage Conditions

Store in a cool, dry, well ventilated area and protect from direct sunlight.

Purus EnviroTack™ Mats

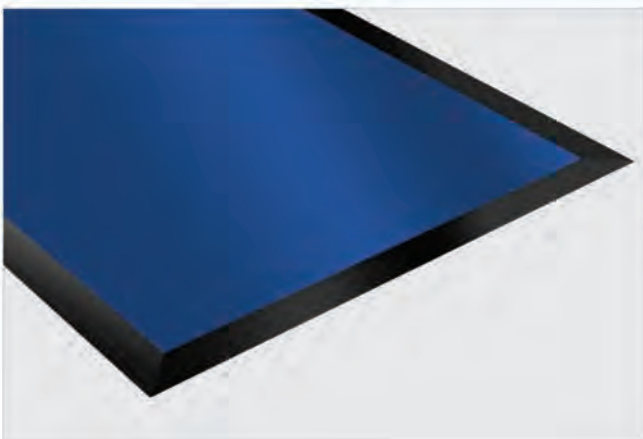

Purus EnviroTack™ Mats are the first ever contamination control product containing renewable plant-based materials, providing an environmentally friendly alternative for socially responsible organizations.

Purus EnviroTack™ Mats remove and contain dirt and dust from foot traffic and equipment wheels. Purus mats are available in 30 or 60-layer versions. Each layer of the mat is fully coated with a particle grabbing adhesive and constructed of low density polyethylene film. A low profile numbered tab indicates the number of remaining layers and ensures one-layer-at-a-time removal.

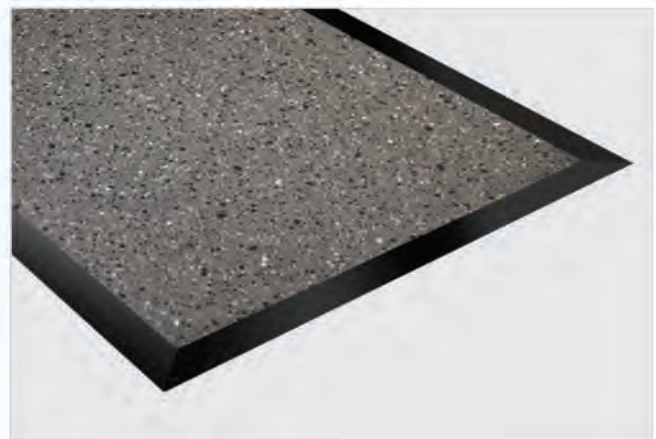

SimStep Permanent Adhesive Mat (120cm,200cm)

- Long service life – an average of 5+ years
- No size or area limit
- Available in different colours (blue is standard, other colours on request)
- Easy to maintain
- Low mat design
- Completely sealed surface; bordered by black, beveled edge strips
- No outgassing from the polymer – 100% free of DOP
- Safe for all cleanroom environments
- Antimicrobial technology that prevents the growth of bacteria
- The low and at the same time highly stable mat also handles heavy carts and pallet trucks

SimStep Tough Permanent Adhesive Mat (120cm, 200cm)

- Long service life – an average of 5+ years
- No size or area limit
- Blue
- Easy to maintain
- Low mat design
- Completely sealed surface; bordered by black, beveled edge strips
- No outgassing from the polymer – 100% free of DOP
- Safe for all cleanroom environments
- Antimicrobial technology that prevents the growth of bacteria
- The low and at the same time highly stable mat also handles heavy carts, pallet trucks and even forklift traffic
- Load capacity up to 130kg/cm²

SimStep Permanent Adhesive Mat (120cm, 200cm)

- Long service life – an average of 5+ years
- No size or area limit
- Speckled grey (other colours available)
- Easy to maintain
- Low mat design
- Completely sealed surface; bordered by black, beveled edge strips
- No outgassing from the polymer – 100% free of DOP
- Safe for all cleanroom environments
- Antimicrobial technology that prevents the growth of bacteria
- The low and at the same time highly stable mat also handles heavy carts, pallet trucks

Dust Binding Mat Adhesive Mat SIMTACK®

- Consist of 30 layers of self-adhesive PE film
- Reliably remove particles and fibers from shoe soles and rollers.
- Due to the completely adhesive underside, the dust binding mats adhere securely to the floor.
- If the upper layer is soiled accordingly, it is simply removed.
- SIMTACK white foil adhesive mat (also called stickymat or tackymat) for the transition from grey space to cleanroom
- Colors: White, Blue

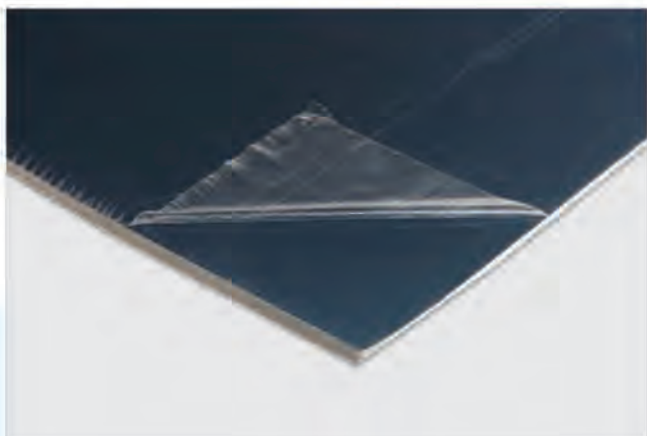

Anti-static Dust Binding Mat Adhesive Mat SIMTACK®

- Consist of 30 layers of self-adhesive PE film
- Anti-static
- Reliably remove particles and fibers from shoe soles and rollers.
- Due to the completely adhesive underside, the dust binding mats adhere securely to the floor.
- If the upper layer is soiled accordingly, it is simply removed.
- SIMTACK white foil adhesive mat (also called stickymat or tackymat) for the transition from grey space to cleanroom

Dust Binding Mat Adhesive Mat SIMTACK® HT

- Consist of 30 layers of self-adhesive PE film
- Reliably remove particles and fibers from shoe soles and rollers.
- Due to the completely adhesive underside, the dust binding mats adhere securely to the floor.
- If the upper layer is soiled accordingly, it is simply removed.
- SIMTACK white foil adhesive mat (also called stickymat or tackymat) for the transition from grey space to cleanroom
- Increased adhesive strength

SBM dust trap mat

- Made of permanently adhesive material without glue and without impregnation that is laid loosely.
- Stickiness is a solid property of the material.
- The mat is easy to clean.
- Treat with sponge and soap solution and then dry with rubber scraper.
- Treatable with common disinfectants.
- The material does not emit any plasticizers or unwanted chemical substances.
- No fastenings are needed.
- Simply place on cleaned floor.
- The perfect connection from the grey room to the cleanroom.

Purus Frames

- Purus Frames are designed to be used with the EnviroTack™ Mats to create a system that is easy to use in any critical area.
- These frames come in a wide variety of sizes and are ideal for any area that does not allow direct adhesion to the flooring surface.
- The Purus Frames are constructed of a hard, rigid, polystyrene base material combined with a non-skid backing that holds the mats in place on almost any surface.
- Custom logos are also available!

CleanPath™ Adhesive Mats

- Mat composition: LDPE (Low Density Polyethylene)
- Non transferring adhesive
- Thickness per sheet: 40 Micron
- Top protective layer
- Bottom backing sheet
- Color of tacky mats: Blue
- Layers are numbered for easy tracking of remaining sheets
- Perfect for cleanrooms. Laboratories and other dust/dirt free environment
- Adhesive contains no solvents such as toluene
- No out-gassing or irritation when peeling of each layer of the mat – odorless
