Who We Are?

Our Aim

Who We Are?

Temizoda Marketi started its business life in 1995 with İNŞEL Yapı ve Teknik Donatım Sistemleri Ltd. Sti. Specializing in cleanroom consultancy, design, implementation, documentation, and training, İNŞEL aims to meet the needs of personnel working in cleanrooms, sterile areas and critically controlled areas when it aims to provide turnkey services in the projects it implements.

İNŞEL, which has started to supply consumables in Cleanrooms, sterile areas and critically controlled areas through its representatives since 2004, has separated this department from its body in time in order not to cause confusion for our valued customers and to provide better service led to creation of Temizoda Marketi Laboratuvar Ürünleri A.Ş.

Today, as Temizoda Marketi, we are always with you, our valued customers, from product selection to training with our professional and experienced staff, while following the technology closely to provide you with the best service in the most accurate way.

Our Aim

As Temizoda Marketi, we know our valued customers from the very beginning, from the installation of your hygienic area and Cleanrooms, and we know your needs. We are aware of how important it is to use the right material in the right place, and we are always at your side to supply you with the best quality and right products with the most appropriate solutions. We supply the highest technology products for you, and we are with you wherever you need, from training to after-sales user Support.

We know that choosing the right product is never the cheapest or the most expensive, and at this point, we help you with the most optimum benefit options...

Why Temizoda Marketi?

We know you; we know your needs and we are here to help you in the best way

As Temizoda Marketi, we try to get to know you first and learn about your business, processes, and needs and offer you the most suitable solutions.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

Choosing the right product is one of the most important issues in cleanrooms and critically controlled areas.

As Temizoda Marketi, we choose the most accurate and best quality products for your business in line with your demands and goals and recommend them by making them economical.

The materials used in critically controlled areas are as special and important as the areas you work in.

We know that the most suitable product for you is not always the most expensive or the cheapest, but it should be the best quality. In order to offer you the optimum solution, as Temizoda Marketi, we offer you the products you need by diversifying them with alternatives from different brands.

As Temizoda Marketi, we know the importance of the documentation of all materials you use in critically controlled areas, and we provide all documents, certificates, analysis reports, and all necessary documentation for you, that are necessary, during the installation phase, application and validation.

Temizoda Marketi does not only approach you as a product supplier. At the same time, it stands behind the products it sells and does not hesitate to take all necessary actions to eliminate it when you have any problems.

It does not sell products without the full support of the companies it represents. When there is a problem about the products, Temizoda Marketi approaches the issue as if using it himself and ensures that it is resolved as soon as possible. Thus, you will get maximum efficiency from the product you have bought.

As Temizoda Marketi, we would like to help you with all the products you need with our wide product range. Even if the product you need does not appear in our catalog, we try to find the product you are looking for with our partners abroad. Thus, we provide you with one-stop service as sole responsibility.

Temizoda Marketi does not only supply you with products, but also provides training, which is one of the greatest necessities of our time. No matter how accurate the product is in critically controlled areas, incorrect or unconscious use can cause unwanted problems. Upon request, it provides the necessary training for the products you have purchased, either by itself or by the manufacturer.

Our Representatives

We are working with well-established companies that have proven their quality all over the world in auxiliary products used in clean rooms, sterile areas, laboratories and other critically controlled areas, to provide you with the best and right product.

Cleanroom Paper

- Dual Binding Technology
- Suitable for use in Class 10 to Class 1000 (ISO class 4 to Class 6) cleanroom.
- Pure image Premier Paper produced in Class 100 (ISO 5) cleanroom.
- Excellent printability and heat toner adhesion.
- Double sided web cleaned prior to sheeting.
- High opacity and durability.
- Recyclable

EcoBond® Recyclable Cleanroom Paper

- No latex binders
- Precision cut edges
- Lot traceability on each case
- Double packed for cleanliness
- Talc free
- High strength and heat resistance
- Good toner adhesion
- Medium weight, 85 g/m²
- Low in particles and fibers
- Low extractables and ions
- Compatible with toner and offset printing
- 100% recyclable
- Cellulose sourced from sustainable managed forests
- Meets RoHS guidelines
- Designed for use in ISO Class 3 and higher cleanroom environments
- Designed for the highest level of contamination control in critical processing applications
- Compatible with standard copiers and printers
- Steam autoclavable for aseptic applications
- Cleanroom manuals and work instructions
- Not recommended for use with inkjet printers

BCR® Bond Single Sheet Paper

- BCR® Bond can be gamma irradiated for use in sterile applications
- Not recommended for use with inkjet printers
- Blue Bond is not recommended for autoclaving
- Purest cellulose to minimize contamination
- Specialised coating to reduce particles, fibers and micro-organisms
- Smooth surface reduces surface particle contamination
- Retains ink from copiers and laser printers to reduce smudging
- Full lot tracing on every case ensuring consistent quality and control
- Double packed for cleanliness
- Meets RoHS guidelines
- Autoclavable
- Heavy weight, 104 g/m²
- Medium weight, 85 g/m²
- Light weight, 68 g/m²

BCR® CLEANOTES

- Made from 104 g/m2 weight cleanroom white bond paper
- Available in 3 x 3" (76 x 76mm)
- Specialised coating to reduce particles and fibers
- Smooth surface reduces surface particle contamination
- Adhesive designed specifically not to leave unwanted residues behind
- Silicone free
- Easy to write on
- Meets RoHS guidelines

BCR® Cleanroom MyNotes

- 100% virgin cellulose from sustainable managed forests
- Low in particles and fibres
- Full lot tracking on every case
- Double packed for cleanliness
- Smooth surfaces reduce particle contamination
- Meets RoHS guidelines
- Covers-100% Polypropylene
- Spirals-100% PVC
- Pages can be written on both sides; 100 pages/50 sheets

Cleanroom notebook

- Cleanroom processed and packaged
- Amide and Silicone free
- Dual Binding Technology without any organic fillers
- Completely recyclable
- Custom printing available

GuardMark 3 Cleanroom Paper Non-sterile

- 250 sheets per pack
- Basic weight 72gsm
- Packed in ISO 14644-1 ISO Class 6 cleanroom
- 2 years shelf life
- Available in 5 colours: White, Blue, Pink, Green and Yellow
- Ultra low particulate release;
- Low ionic content
- Excellent with IPA resistance
- Hard wearing paper

GuardMark 4 Cleanroom Munising Paper Non-sterile

- 250 sheets per pack
- Basic weight 85gsm
- Packed in ISO 14644-1 ISO Class 6 cleanroom
- Thickness 112µm
- Synthetic polymer fibres
- Available in three colours White, Blue and Yellow
- Low particulate release
- Good heat stability
- ROHS Compliant

GuardMark 4 Cleanroom Munising Paper Sterile

- 250 sheets per pack
- Basic weight 85gsm
- Packed in ISO 14644-1 ISO Class 6 cleanroom
- Thickness 112µm
- Synthetic polymer fibres
- Available in White
- Low particulate release
- Good heat stability
- ROHS Compliant

Cleanroom permanent marker BioClean Permaflow

- Material: plastic (IPA resistant) with highly permanent ink (not IPA resistant)
- Length: 140mm
- Available in the colors blue and black
- ISO 4
- GMP A
- Sterile
- Double wrapped
- Free from amines and amides
- Auto-sealing ink prevents drying out
- Colorfast and water resistant
- Fast drying
- Non-toxic
- Gamma sterilized

• Sterile RR ballpoint pen PH10062S

- Made of patented antibacterial material.
- With permanent bacteriostatic effect, resistant to abrasion and chemical decontamination. Low particle release.
- Extensive tests applying different types of microorganisms to the pen surface, in accordance with ISO standard 22196:2011, show a reduction of over 98% of the original bioburden.
- The pen fits into a pocket clip and features a push mechanism to control tip advance and retraction and the cap, improving handling when wearing sterile gloves and isolator gloves.
- Color: blue
- 5 pieces in a bag (individually packed)
- 4 bags in one RRP
- 20 pieces triple wrapped

Cleanroom ballpoint pen PH10524

- The "RR ballpoint pen PH10524" made of patented permanently antibacterial material
- Resistant to abrasion and decontamination measures with chemical substances.
- Tests on the products show a reduction in bacterial load on the surface of more than 98%.
- It is also equipped with a hook clip.
- Blue ink.
- The product code and batch number are indicated on each pack.
- 5 pieces in a bag (individually packed)
- 4 bags in one RRP
- 20 pieces triple wrapped

Cleanroom Ballpoint Pen PH10525

- The "RR ballpoint pen PH10525" made of patented permanently antibacterial material.
- Resistant to abrasion and decontamination measures with chemical substances.
- Tests on the products show a reduction in bacterial load on the surface of more than 98%.
- It is also equipped with a hook clip.
- Black ink.
- The product code and batch number are indicated on each pack.
- 5 pieces in a bag (individually packed)
- 4 bags in one RRP
- 20 pieces triple wrapped

GuardMark 2 Cleanroom Marker Pen Black Sterile

- Sterile cleanroom marker pens
- Manufactured from polyester & polypropylene
- Packed in ISO 14644-1 ISO Class 6 cleanroom
- 2 years shelf life
- For use up to ISO 14644-1 ISO Class 4 Cleanrooms
- Use on plastic, glass or metals
- Chemical resistant
- IPA compatible
- Low particulate generation
- Anti static
- Low heavy metals ink

The "Cleanroom Silicone Keyboard S1" is a fully sealed silicone keyboard with USB interface.

- Material: Silicone Plate + ABS Case
- Length: 443mm
- Width: 128mm
- Height 13mm
- Color white
- Key layout: German
- Button Size: 15*15mm
- Weight: 580g
- Protection class: IP68 (protection against dust and water)
- The keys protrude only 0.5mm and are easy to clean

The "Clean Room Glass Keyboard G1 / G1W" can be used with all common disposable gloves and wet hands.

- The built-in lock button allows you to clean the keyboard while it is on.
- Material: tempered glass surface + ABS housing
 - Width: 436mm
 - Height: 161mm
 - Depth: 20mm
 - Color white
 - Keyboard layout: German
 - Plug and Play: Easy to "install", no drivers required
 - With touchpad support multi-gesture control
 - Can be used with all common disposable gloves and wet hands
 - Possibility of haptic and acoustic feedback
 - Numeric keypad can be converted to a touchpad

Wireless cleanroom keyboard glass cleankeys CK4W

Capacitive desktop glass keyboard with touchpad certified according to DIN EN 60601-1-2:2016 (IEC 60601-1-2:2014 4th edition)
Completely closed surface made of Gorilla® glass

USB cleanroom keyboard glass cleankeys CK4

Capacitive desktop glass keyboard with touchpad certified according to DIN EN 60601-1-2:2016 (IEC 60601-1-2:2014 4th edition)
Completely closed surface made of Gorilla® glass

Cleanroom Keyboard InduProof Smart Classic

The InduProof Smart Classic is a silicone-coated keyboard with 106 keys. It has a complete set of keys with a number block and convinces with a pleasant sense of touch with the highest degree of protection. Intensive cleaning is possible without any problems. Due to the high-quality processing "Made-in-Germany" it has a long service life.

Silicone Mouse MED

This PC mouse has an ergonomic design and impresses with a pleasant sense of touch with the highest degree of protection (IP68). It can therefore be cleaned and disinfected all around. Thanks to a nano-silver additive, its surface actively protects against germs and bacteria.

Particle Visualization Lamp

Is a UV flashlight for clean room inspection that is highly effective and powerful.

Due to the original Cree LEDs, this is suitable for 20,000 hours of operation.

- Material: aluminum
- Length: 219mm
- Diameter head: 52 mm
- Handle diameter: 28.5 mm
- Color: Black
- Very effective, powerful flashlight in HQ design
- Scratch resistant to the highest standards
- UV-A light or white light for best particle control
- 2x rechargeable Li-ion batteries from Panasonic
- Original Cree LEDs designed for 20,000 hours of use
- Safety goggles optionally available in different colors
- Durable design
- Inductive charging
- IP67
- Round aesthetic surface
- Incl. table mount

Particle Visualization Lamp PDL II Powerlight

Is a UV flashlight for clean room inspection that is highly effective and powerful. Due to the original Cree LEDs, this is suitable for 20,000 hours of operation.

- Material: aluminum
- Length: 219mm
- Diameter head: 52 mm
- Handle diameter: 28.5 mm
- Color: Black
- Very effective, powerful flashlight in HQ design
- Scratch resistant to the highest standards
- UV-A light or white light for best particle control
- 2x connected Panasonic Li-ion rechargeable batteries
- Original Cree LEDs designed for 20,000 hours of use
- can be used for 50 minutes in UV mode before the temperature protection switches it off
- Safety goggles optionally available in different colors
- Durable design
- Inductive charging
- IP67
- Round aesthetic surface
- Incl. table mount

Cleanroom adhesive tape UltraTape 1112

The adhesive tape was specially developed for clean room packaging and the sealing of wafer boxes and other process-related applications. This clean room certified tape is made from a specially developed adhesive that leaves no residue even after long periods of storage.
Residue-free removal, no ghosting, makes wafer boxes easy to clean and reuse
Excellent conformability to uneven surfaces and making better seals
Extremely low content of metals, halogens and outgassing
Cleanroom certified

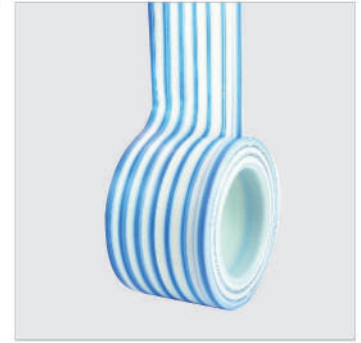

Cleanroom adhesive tape UltraTape 1110

The adhesive tape was specially developed for clean room packaging and the sealing of wafer boxes and other process-related applications. This clean room certified tape is made from a specially developed adhesive that leaves no residue even after long periods of storage.
Residue-free removal, no ghosting, makes wafer boxes easy to clean and reuse
Excellent conformability to uneven surfaces and making better seals
Extremely low content of metals, halogens and outgassing
Cleanroom certified

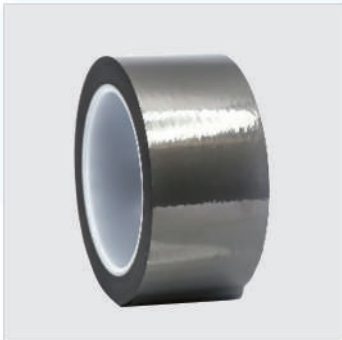

Cleanroom adhesive tape UltraTape 1160

A universal vinyl tape. Medium adhesion offers a strong bond and easy detachment, making it perfect for maintenance and construction work.
Chemical resistant durable backing
Bright, durable colors for floor and tool marking
Low residue
Simple lettering with a pen

Cleanroom adhesive tape UltraTape 1153

This high tack cleanroom tape is ideal for general purpose and construction applications where a strong hold is required. The rubber adhesive adheres quickly to most surfaces and is considered low-residue for glass, metal and plastic.
Residue-free removal from most surfaces
Easy to tear by hand
Simple lettering with a pen
Very low outgassing

Cleanroom adhesive tape UltraTape 2149

Specially constructed self-adhesive tape based on a polyester film coated with an anti-static primer plus and an anti-static pressure-sensitive acrylic adhesive layer.
Antistatic cover application
Sealing of antistatic bags and packaging

Cleanroom adhesive tape UltraTape 1114P

Low tack, highly flexible polyethylene tape with perforations for easy one-handed application. This tape is ideal for environments where protective clothing is worn that creates a seal between glove and clothing.
Easy to attach and remove with one hand
Excellent conformability to uneven surfaces and better seals
Perforated every 10 cm
Available irradiated

Cleanroom adhesive tape UltraTape 1154

This medium tack cleanroom tape is ideal for general purpose and construction applications where a strong hold is required. The rubber adhesive adheres quickly to most surfaces and is considered low-residue for glass, metal and plastic.
Residue-free removal from most surfaces
Easy to tear by hand
Simple lettering with a pen
Very low outgassing

Cleanroom tape

Consists of a 3-layer co-extruded polyolefin (FPO) film with an environmentally friendly, water-based acrylic adhesive.
