Who We Are?

Our Aim

Who We Are?

Temizoda Marketi started its business life in 1995 with İNŞEL Yapı ve Teknik Donatım Sistemleri Ltd. Sti. Specializing in cleanroom consultancy, design, implementation, documentation, and training, İNŞEL aims to meet the needs of personnel working in cleanrooms, sterile areas and critically controlled areas when it aims to provide turnkey services in the projects it implements.

İNŞEL, which has started to supply consumables in Cleanrooms, sterile areas and critically controlled areas through its representatives since 2004, has separated this department from its body in time in order not to cause confusion for our valued customers and to provide better service led to creation of Temizoda Marketi Laboratuvar Ürünleri A.Ş.

Today, as Temizoda Marketi, we are always with you, our valued customers, from product selection to training with our professional and experienced staff, while following the technology closely to provide you with the best service in the most accurate way.

Our Aim

As Temizoda Marketi, we know our valued customers from the very beginning, from the installation of your hygienic area and Cleanrooms, and we know your needs. We are aware of how important it is to use the right material in the right place, and we are always at your side to supply you with the best quality and right products with the most appropriate solutions. We supply the highest technology products for you, and we are with you wherever you need, from training to after-sales user Support.

We know that choosing the right product is never the cheapest or the most expensive, and at this point, we help you with the most optimum benefit options...

Why Temizoda Marketi?

We know you; we know your needs and we are here to help you in the best way

As Temizoda Marketi, we try to get to know you first and learn about your business, processes, and needs and offer you the most suitable solutions.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

Choosing the right product is one of the most important issues in cleanrooms and critically controlled areas.

As Temizoda Marketi, we choose the most accurate and best quality products for your business in line with your demands and goals and recommend them by making them economical.

The materials used in critically controlled areas are as special and important as the areas you work in.

We know that the most suitable product for you is not always the most expensive or the cheapest, but it should be the best quality. In order to offer you the optimum solution, as Temizoda Marketi, we offer you the products you need by diversifying them with alternatives from different brands.

As Temizoda Marketi, we know the importance of the documentation of all materials you use in critically controlled areas, and we provide all documents, certificates, analysis reports, and all necessary documentation for you, that are necessary, during the installation phase, application and validation.

Temizoda Marketi does not only approach you as a product supplier. At the same time, it stands behind the products it sells and does not hesitate to take all necessary actions to eliminate it when you have any problems.

It does not sell products without the full support of the companies it represents. When there is a problem about the products, Temizoda Marketi approaches the issue as if using it himself and ensures that it is resolved as soon as possible. Thus, you will get maximum efficiency from the product you have bought.

As Temizoda Marketi, we would like to help you with all the products you need with our wide product range. Even if the product you need does not appear in our catalog, we try to find the product you are looking for with our partners abroad. Thus, we provide you with one-stop service as sole responsibility.

Temizoda Marketi does not only supply you with products, but also provides training, which is one of the greatest necessities of our time. No matter how accurate the product is in critically controlled areas, incorrect or unconscious use can cause unwanted problems. Upon request, it provides the necessary training for the products you have purchased, either by itself or by the manufacturer.

Our Representatives

We are working with well-established companies that have proven their quality all over the world in auxiliary products used in clean rooms, sterile areas, laboratories and other critically controlled areas, to provide you with the best and right product.

Stainless steel clean room shelving consisting of a base frame and perforated welded shelves.

For use in technical clean rooms

Material stainless steel (1.4301/AISI 304)

Base frame made of square tube

Upper ends closed with plastic caps

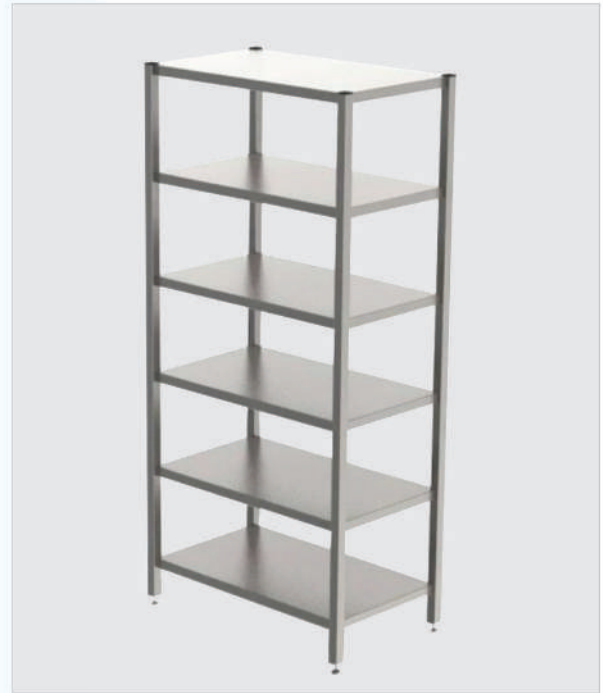

Floor leveling with plate feet made of CNS (+/- 10 mm)

Shelves, folded and perforated on all sides

Firmly welded

Perforation $\varnothing$ 10 mm in a grid of 15 x 15 mm to support the laminar air flow

Stabilized by reinforcement depending on the design and dimensions

Clean room shelving made of stainless steel consisting of a base frame and smooth welded shelves.

Material stainless steel (1.4301/AISI 304)

Base frame made of square tube

Upper ends closed with plastic caps

Floor leveling with plate feet made of CNS (+/- 10 mm)

Shelves, folded on all sides

Firmly welded

Smooth surface

Stabilized by reinforcement depending on the design and dimensions

Trolley RTW1GEL

Stainless steel transport trolley for clean room environments consisting of floor, square profiles, push handle and castors.

- For use in technical clean rooms
- Material stainless steel (1.4301/AISI 304)
- Base with perforation (ø 10 mm in 15 x 15 mm grid) to support the laminar air flow

Clean room transport trolley RTW1GL"

Stainless steel transport trolley for clean room environments consisting of a smooth floor, square profiles, push handle and castors.

- Material stainless steel (1.4301/AISI 304)
- Floor with a smooth surface firmly welded
- Stabilized by reinforcement depending on the design and dimensions

Clean room transport trolley RTW2GEL"

Clean room transport trolley consisting of 2 perforated floors, square profiles and castors.

- For use in technical clean rooms
- Material stainless steel (1.4301/AISI 304)
- 2 shelves with perforations (ø 10 mm in a grid of 15 x 15 mm) to support the laminar air flow
- Firmly welded
- Stabilized by reinforcement depending on the design and dimensions

Clean room trolley made of stainless steel for transport consisting of 3 perforated shelves, square profiles and castors.

- For use in technical clean rooms
- Material stainless steel (1.4301/AISI 304)
- Shelves with perforations (ø 10 mm in a 15 x 15 mm grid) to support the laminar air flow
- Firmly welded
- Stabilized by reinforcement depending on the design and dimensions

Clean room cloakroom RG2"

Clean room coat rack for wall mounting consisting of base frame and coat hangers.

- Material stainless steel (1.4301/AISI 304)
- Base frame made of square tube
- Square profiles with plastic caps (black) closed at the top
- Prepared for on-site wall mounting
- 4 mounting holes closed with plastic caps (black).
- Without fastening material
- Length (mm) / number of welded hangers
- 800 / 7
- 900 / 8
- 1000 / 9
- 1100 / 10
- 1200 / 11
- Width: 500mm
- Height: 305mm

Clean room cloakroom RG1

Clean room wardrobe consisting of a base frame and clothes hangers.

- Material stainless steel (1.4301/AISI 304)
- Base frame made of square tube
- Cross bracing for stabilization
- Square profiles with plastic caps (black) closed at the top
- Floor leveling with plate feet made of CNS (+/- 10 mm)
- Length / number of welded hangers
- 1000mm / 9
- 1300mm / 12
- 1600mm / 15
- Width: 500mm
- Height: 2000mm

Acrylic glass dispenser box for finger cots

This fingerling dispenser can be placed on a stand or hung on a wall.
Material: acrylic glass
LxWxH: 250 x 120 x 370 mm
Hinged lid for filling
Flap in front for removal

Acrylic glass dispenser box for hoods

This acrylic dispenser is used for the convenient removal of disposable caps and can be placed or hung on a wall.
Material: acrylic glass
Internal dimensions (LxWxH): 300 x 300 x 145 mm
Hinged lid with access hole

Acrylic glass glove dispenser for 1 dispenser box

Glove dispensers for wall mounting have proven themselves for the convenient removal of box-packed disposable gloves. With this model made of acrylic glass, the dispenser box is simply pushed in from the left or right. The disposable gloves can then be easily removed from the front through the opening in the dispenser box

Acrylic glass dispenser box for disposable gloves

This "dispenser box for disposable acrylic gloves" can be used standing on a cupboard or shelf or hanging on a wall. It is available in the size for cleanroom gloves with a length of 300 mm, although we can of course also manufacture dispensers in special dimensions. Please ask for this separately. The removal opening is offset to the left at the front and not in the middle so that the gloves can be pulled out by the shaft. The risk of contamination of the gloves is reduced to a minimum.

Acrylic glass dispenser box for towels

This open-topped acrylic wipes dispenser can be used standing on a cupboard or shelf or hanging on a wall. It is available in three sizes to accommodate standard 12.7 x 12.7 cm (5" x 5"), 23 x 23 cm (9" x 9") and 30.5 x 30.5 cm (12" x 12") available, although we can of course also have dispensers made in special sizes

Acrylic glass dispenser box with lid for wipes

This acrylic dispenser box with lid for wipes can be used standing on a cupboard or shelf or hanging on a wall. It is available in three sizes for standard wiper sizes of approximately 12.7 x 12.7 cm (5" x 5"), 23 x 23 cm (9" x 9") and 30.5 x 30.5 cm (12" x 12") available, although we can of course also have dispensers made in special sizes. Please inquire about this.

**Universal dispenser box made of acrylic glass**

This universal dispenser box is ideal for disposable products such as hoods or shoe covers. While filling takes place from above, the disposable items can be conveniently removed through a large oval opening on the front. The acrylic box can be set up, for example, on a shelf or on a table.

**Acrylic Glass Face Mask Dispenser"**

This "dispenser box for face masks" is made of acrylic glass and is used for the convenient removal of disposable face masks. This can be placed or hung on a wall.

**Stainless steel dispenser box for disposable gloves"**

Material Thickness: 1.5mm
2 mounting holes on the back for wall mounting
Inside lid, foldable
Removal opening at the front, offset to the left, approx. 50mm wide
Dimensions: 300 x 150 x 150mm
