Who We Are?

Our Aim

Who We Are?

Temizoda Marketi started its business life in 1995 with İNŞEL Yapı ve Teknik Donatım Sistemleri Ltd. Sti. Specializing in cleanroom consultancy, design, implementation, documentation, and training, İNŞEL aims to meet the needs of personnel working in cleanrooms, sterile areas and critically controlled areas when it aims to provide turnkey services in the projects it implements.

İNŞEL, which has started to supply consumables in Cleanrooms, sterile areas and critically controlled areas through its representatives since 2004, has separated this department from its body in time in order not to cause confusion for our valued customers and to provide better service led to creation of Temizoda Marketi Laboratuvar Ürünleri A.Ş.

Today, as Temizoda Marketi, we are always with you, our valued customers, from product selection to training with our professional and experienced staff, while following the technology closely to provide you with the best service in the most accurate way.

Our Aim

As Temizoda Marketi, we know our valued customers from the very beginning, from the installation of your hygienic area and Cleanrooms, and we know your needs. We are aware of how important it is to use the right material in the right place, and we are always at your side to supply you with the best quality and right products with the most appropriate solutions. We supply the highest technology products for you, and we are with you wherever you need, from training to after-sales user Support.

We know that choosing the right product is never the cheapest or the most expensive, and at this point, we help you with the most optimum benefit options...

Why Temizoda Marketi?

We know you; we know your needs and we are here to help you in the best way

As Temizoda Marketi, we try to get to know you first and learn about your business, processes, and needs and offer you the most suitable solutions.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

As Temizoda Marketi, we are always happy and proud to assist you with our trained and experienced staff.

We are working to give you the best and highest quality service with our experienced staff dedicated to each department.

Choosing the right product is one of the most important issues in cleanrooms and critically controlled areas.

As Temizoda Marketi, we choose the most accurate and best quality products for your business in line with your demands and goals and recommend them by making them economical.

The materials used in critically controlled areas are as special and important as the areas you work in.

We know that the most suitable product for you is not always the most expensive or the cheapest, but it should be the best quality. In order to offer you the optimum solution, as Temizoda Marketi, we offer you the products you need by diversifying them with alternatives from different brands.

As Temizoda Marketi, we know the importance of the documentation of all materials you use in critically controlled areas, and we provide all documents, certificates, analysis reports, and all necessary documentation for you, that are necessary, during the installation phase, application and validation.

Temizoda Marketi does not only approach you as a product supplier. At the same time, it stands behind the products it sells and does not hesitate to take all necessary actions to eliminate it when you have any problems.

It does not sell products without the full support of the companies it represents. When there is a problem about the products, Temizoda Marketi approaches the issue as if using it himself and ensures that it is resolved as soon as possible. Thus, you will get maximum efficiency from the product you have bought.

As Temizoda Marketi, we would like to help you with all the products you need with our wide product range. Even if the product you need does not appear in our catalog, we try to find the product you are looking for with our partners abroad. Thus, we provide you with one-stop service as sole responsibility.

Temizoda Marketi does not only supply you with products, but also provides training, which is one of the greatest necessities of our time. No matter how accurate the product is in critically controlled areas, incorrect or unconscious use can cause unwanted problems. Upon request, it provides the necessary training for the products you have purchased, either by itself or by the manufacturer.

Our Representatives

We are working with well-established companies that have proven their quality all over the world in auxiliary products used in clean rooms, sterile areas, laboratories and other critically controlled areas, to provide you with the best and right product.

King GMP

Removes 99.9% of all particles in a single-stage process

- Safe disinfection of GMP areas through validatable wetting process
- Autoclavable up to 50 processing cycles, resistant to disinfection and gamma radiation
- Optimised for the EasyMop GMP impregnation method
- Minimal amount of particle emission

Types of floors

- All standard cleanroom and pharmaceutical floors

Working material

- 100% high-tech manufactured polyester microfiber yarn suitable for the cleanroom hollow-knitted bagging with sealed edges

Equipment

- Loop along the same lines as working material, special laminated cover, textile pocket with drainage function

ORDER INFORMATION

PRODUCT	PART NUMBER	WEIGHT	DIMENSIONS	PKS/CS

MicroSicuro CR/A

Removes 99.9% of all particles in a single-stage process

- Safe disinfection of GMP areas through validatable wetting process
- Maximal square meter cleaning rate through use of innovative material combination, ideal for removal of disinfection agent residues.
- Autoclavable up to 50 processing cycles, resistant to disinfection agents and gamma radiation
- Through maximum capillary effects, optimally suited for all PPS cleaning methods

Types of floors

- All standard cleanroom and pharmaceutical floors, perforated floors and anti-slip flooring

Working material

- 100% PES microfibers with special soft bristle

Equipment

- With permeable cover, polyester pocket with drainage function, with backfilling for high square meter cleaning rate

ORDER INFORMATION

PRODUCT	PART NUMBER	WEIGHT	DIMENSIONS	PKS/CS
MicroSicuro CR/A	2700268	110g	40cm	10 x 5

MicroMopp Standart CR/A

Fully enclosed construction made from 100% polyester micro loops, right-angled mop design for optimal use in corners

- Very good gliding characteristics, not suitable for chlorine-based disinfectants
- Suitable for dissolving adhesive contamination.
- Suitable for impregnation and flat wringer
- Autoclavable

Types of floors

- All standard cleanroom and pharmaceutical floors

Working material

- 100% PS microfibers with polypropylene bristle

Equipment

- With permeable cover, polyester pocket with drainage function, with PU backfilling for high square meter cleaning rate

EasyClean® 360 Knitted Polyester SuperPolx® 1200A Isolator Cleaning Tool Covers

Made from Berkshire's SuperPolx® 1200A 100% continuous filament knitted polyester material

- Cover is non-shedding and low-linting per USP <797> and USP <800> requirements
- Laundered and packaged in an ISO Class 4 cleanroom for superior fibre, particle and residue performance
- Stretch fabric and elastic edge allow easy installation and secure fit on the mop head
- Absorbent polyester knit is abrasion resistant and durable to a wide range of cleaning solutions
- Recommended for use with the EasyClean® 360 Knitted Polyester Padded Cover
- Compatible for use in ISO Class 3/EU Grade A environments after sterilising
- Validated sterile option available

EasyClean® 360 Knitted Polyester SuperPolx® 1200A Isolator Cleaning Tool Covers

Made from Berkshire's SuperPolx® 1200A 100% continuous filament knitted polyester material

EasyClean® 360 Knitted Polyester Choice® SuperSorb Isolator Cleaning Tool Covers

Made from Berkshire's Choice® SuperSorb 100% continuous filament knitted polyester material

- Laundered and packaged in an ISO Class 4 cleanroom for superior fibre, particle and residue performance
- Foam-free cushioned design ensures even surface coverage with reduced residues and contaminants
- Easy installation and secure fit on the mop head
- Recommended for use with the EasyClean® 360 Knitted Polyester Elastic Covers
- Compatible for use in ISO Class 3/EU Grade A environments after sterilising
- Validated sterile dry and pre-saturated options available (70% IPA, 30% DI water)

Choice® Micro Fiber Mop Head

- White 88% polyester/12% nylon microfiber string mop with blue headband and tailband
- Microfiber yarns attract and trap dirt and debris
- Terry knit structure enhances absorbency to increase efficiency
- Tubular knit construction with sewn head and tail bands provides added durability
- Lot number assures traceability
- Chemical resistant and non-abrasive
- Autoclavable
- Can be laundered and re-used
- Recommended for ISO Class 5-8

Single use mops King CR Wiper Mop

Cost-efficient single-use mop

- If desired, available in sterile double-packaged form
- Ideally suited for cytostatic areas
- High levels of area output through backfilling
- Very high quality, processing suitable for cleanrooms

Types of floors

- All standard cleanroom and pharmaceutical floors

MicroKing	2140080	150g	40x12cm	100

**King CR cloth mop**

Disposable mop with IPA certification for small clean rooms.

Benefits

- Cost-effective disposable mop
- Suitable for cytostatic areas
- High area output due to storage material
- Suitable for the pre-preparation method EasyMop GMP and CR and flat press Ringo GMP
- Very high-quality, clean room-suitable processing
- Ready to use pre-washed
- IPA certification "Tested Device"

Technical User Information:

- Weight: 44 g
- Dimensions: 40 x 12 cm
- Color: white
- Working material (color): 100% polyester (white)
- Equipment: With polyester bag, with storage material

**King CR cloth mop, gamma irradiated**

Gamma-in irradiated disposable mop for small clean rooms.

Benefits

- Cost-effective disposable mop
- Suitable for cytostatic areas
- High area output due to storage material
- Autoclavable
- Very high-quality, clean room-suitable processing
- Ready to use pre-washed
- Ask our sales department for the IPA certification "Tested Device"

Technical User Information:

- Weight: 44 g
- Dimensions: 40 x 12 cm
- Color: white
- Working material (color): 100% polyester (white)
- Equipment: With polyester bag, with storage material

KingHospital

Premium mop for hygienically sensitive areas in healthcare.

Benefits

- High area output
- Excellent dirt absorption capacity
- Suitable for wet clean
- Wet cleaning
- Disinfection
- Surface coating
- Especially for use with aldehyde-free disinfectants
- Ready to use pre-washed

Technical User Information:

- Weight: 150 g
- Dimensions: 40 x 12 cm
- Color: blue
- Working material (color): 50% polyester, 50% viscose (blue)
- Equipment: with cover sheet to protect the work material, with PVC bag, double locking of the bag seam

MicroLord 3

Universal mop made of first-class raw materials made in Germany.

Benefits

- Very good area performance
- Excellent dirt absorption capacity
- Maximum cleaning performance due to additional microfiber rows
- Suitable for smooth hard floors
- Sealed parquet floors and laminate
- Suitable for wet clean
- Wet cleaning
- Disinfection
- Surface coating
- Ready to use pre-washed

Technical User Information:

- Weight: 140 g
- Dimensions: 40 x 12 cm
- Color: white, gray
- Working material (color): 50% polyester, 50% viscose (white, gray)
- Equipment: with cover sheet to protect the work material, with outer sling, with EasyFlow bag system

**MicroMopp**

Premium mop made of the best material quality and state-of-the-art fiber mixtures made in Germany.

Benefits

- High area output due to storage material
- Excellent dirt absorption capacity
- Suitable for smooth hard floors
- Sealed parquet floors and laminate
- Suitable for wet clean
- Wet cleaning
- Disinfection
- Surface coating

Technical User Information:

- Weight: 110 g
- Dimensions: 40 x 12 cm
- Color: white
- Working material (color): 100% polyester (white)
- Equipment: with storage material for high sqm performance, with cover sheet to protect the work material, with pocket system EasyFlow

**MicroMopp Basic**

Standard mop with an excellent price-performance ratio made in Germany.

Benefits

- Very good area performance
- Excellent dirt absorption capacity
- Suitable for smooth hard floors
- Structured hard floors
- Sealed parquet floors and laminate
- Suitable for wet clean
- Wet cleaning
- Dry cleaning
- Disinfection
- Surface coating

Technical User Information:

- Weight: 94 g
- Dimensions: 40 x 12 cm
- Working material (color): 100% polyester (blue/white)
- Equipment: with cover sheet to protect the work material, with pocket system EasyFlow

MicroMopp Eco

Standard mop with an excellent price-performance ratio made in Germany.

Benefits

- Very good area performance
- Excellent dirt absorption capacity
- Suitable for smooth hard floors
- Structured hard floors
- Sealed parquet floors and laminate
- Suitable for wet clean
- Wet cleaning
- Dry cleaning
- Disinfection

Technical User Information:

- Weight: 50 g
- Dimensions: 40 x 12 cm
- Color: white
- Working material (color): 100% polyester (white)
- Equipment: with cover sheet to protect the work material, with PVC bag

MicroMopp Plus Magic

Premium mop made of the best material quality and state-of-the-art fiber mixtures made in Germany.

Benefits

- High area output due to storage material
- Excellent dirt absorption capacity
- Suitable for smooth hard floors
- Sealed parquet floors and laminate
- Suitable for dry cleaning
- Sealed parquet floors
- Laminate
- Ready to use pre-washed

Technical User Information:

- Weight: 130 g
- Dimensions: 40 x 12 cm
- Color: white
- Working material (color): 100% polyester (white)
- Equipment: with storage material for high square meter performance, with cover sheet to protect the work material, with pocket system EasyFlow, with outer sling made of microfiber

MicroMopp Standard CR/A

Reusable mop for sterile GMP areas.

Benefits

- Completely closed workmanship made of 100% polyester micro-slugs, right-angled mop design for optimal reaching of corners
- Ideal for dissolving adhering dirt
- Autoclavable
- Suitable for the pre-preparation method EasyMop GMP and CR and flat press Ringo GMP
- Not suitable for chlorine-containing disinfectants
- Very high-quality, clean room-suitable processing
- IPA certification "Tested Device"

Technical User Information:

- Weight: 135 g
- Dimensions: 40 x 12 cm
- Color: white, blue
- Working material (color): 60% polyester, 40% polypropylene (white/blue)
- Equipment: With water-permeable cover sheet, polyester bag with drainage function, with storage material for high sqm performance

MicroMopp Universal Plus

Universal mop made of first-class raw materials made in Germany.

Benefits

- Very good area performance
- Excellent dirt absorption capacity
- Suitable for smooth hard floors
- Structured hard floors
- Sealed parquet floors and laminate
- Suitable for wet cleaning
- Wet cleaning
- Dry cleaning
- Disinfection
- Ready to use pre-washed

Technical User Information:

- Weight: 104 g
- Dimensions: 40 x 12 cm
- Color: white
- Working material (color): 100% polyester (white)
- Equipment: with cover sheet to protect the work material, with outer sling made of polyester raw white

MicroSicuro CR

Reusable mop made in Germany.

Benefits

- Maximum cleaning performance through 2-component work material
- Ideal for dissolving adhering dirt
- Germ reduction of bacteria, yeast and mold by more than 99% is already achieved with ionized water (test method DGMH 2001. Standard method 14)
- Suitable for all PFENNIG cleaning methods due to maximum capillary effect
- High area output due to storage material
- Very high-quality, clean room-suitable processing

Technical User Information:

- Weight: 120 g
- Dimensions: 40 x 12 cm
- Color: white, blue
- Working material (color): 76% polyester, 24% polyamide (white/blue)
- Equipment: With water-permeable cover sheet, polyester bag with drainage function, with storage material for high sqm performance

MicroSicuro CR/A

Reusable mop made in Germany with IPA certification for sterile GMP areas.

Benefits

- Removes 99.9% of all particles in a one-step process
- Safe disinfection of GMP areas through validated wetting behavior
- Autoclavable up to 50 preparation cycles, disinfectant-resistant, gamma-ray-resistant
- Suitable for all PFENNIG cleaning methods due to maximum capillary effect
- Ideal for removing disinfectant residues
- Very high-quality, clean room-suitable processing
- Ready to use pre-washed
- IPA certification "Tested Device"

Technical User Information:

- Weight: 114 g
- Dimensions: 40 x 12 cm
- Color: white, blue
- Working material (color): 100% polyester (white/blue)
- Equipment: With water-permeable cover sheet, polyester bag with drainage function, with storage material for high sqm performance

MicroSicuro CR/A-R

Sustainable reusable mop Made in Germany for sterile GMP areas.

Benefits

- Made of 100% polyester micro-slits, right-angled mop design for optimal reaching of corners
- Very good sliding properties, not suitable for chlorine-containing disinfectants
- Ideal for dissolving adhering dirt
- Optimally suitable for the pre-preparation method EasyMop GMP and CR and flat press Ringo GMP
- Autoclavable
- Ready to use pre-washed

Technical User Information:

- Weight: 108 g
- Dimensions: 40 x 12 cm
- Color: white, green
- Working material (color): 100% polyester (white/green)
- Equipment: Made of up to 76% recycled material (pre-consumer, remelted waste material)

Eco TEC

Resource-saving high-tech mop made in Germany.

Benefits

- Very good area performance
- Excellent dirt absorption capacity
- 50% lower consumption of water and electricity
- Detergent and time in the preparation process compared to market-standard mop covers
- Suitable for smooth hard floors, sealed parquet floors and laminate
- Suitable for wet clean
- Wet cleaning
- Disinfection
- Surface coating
- Above-average durability due to high-tech TEC yarns
- Ready to use pre-washed

Technical User Information:

- Weight: 95 g
- Dimensions: 40 x 12 cm
- Color: blue, gray, white
- Working material (color): 50% polyester, 50% viscose (white, blue), 75% polyester, 25% viscose (grey) /
- Equipment: with EasyFlow bag system

Mopp Micro Wave PW

Standard mop with an excellent price-performance ratio.

Benefits

- Very good area performance
- Excellent dirt absorption capacity
- Suitable for smooth and structured hard floors, sealed parquet floors and laminate
- Suitable for wet cleaning, wet cleaning, dry cleaning and disinfection
- Pre-washed

Technical User Information:

- Weight: 100 g
- Dimensions: 40 x 10 cm
- Color: white, gray, green
- Working material (color): 75% polyester (white), 25% polyamide (grey/green)
- Equipment: with cover sheet and storage material, with pocket system
- EasyFlow, with 4-color system

SilberKing

Premium mop with silver ions for hygienically sensitive areas.

Benefits

- High area output
- Excellent dirt absorption capacity
- Suitable for smooth hard floors
- Sealed parquet floors and laminate
- Oiled parquet floors
- Suitable for wet clean
- Wet cleaning
- Disinfection
- Surface coating
- Suitable for hygienically sensitive areas
- Due to silver ionization, mop can remain in wet condition for a long time
- Ready to use pre-washed

Technical User Information:

- Weight: 150 g
- Dimensions: 40 x 12 cm
- Color: white
- Working material (color): 50% polyester, 50% viscose (white)
- Equipment: with cover sheet to protect the work material, with PVC bag, double locking of the bag seam

**Secco Plus**

Premium mop for dry cleaning made in Germany.

Benefits

- High area output due to storage material
- Excellent dirt absorption capacity
- Suitable for smooth hard floors
- Structured hard floors
- Sealed parquet floors and laminate
- Suitable for wet cleaning
- Dry cleaning
- Ready to use pre-washed

Technical User Information:

- Weight: 101 g
- Dimensions: 40 x 12 cm
- Color: blue, gray
- Working material (color): 83% polyester, 17% polyamide (blue)
- Equipment: with storage material for high sqm performance, with cover sheet to protect the work material, with outer sling made of TEC, belt bag extremely tear-resistant

**Sicuro Universal**

Universal mop made of first-class raw materials made in Germany.

Benefits

- Very good area performance
- Excellent dirt absorption capacity
- Suitable for smooth hard floors
- Structured hard floors
- Safety tiles
- Suitable for wet cleaning
- Wet cleaning
- Dry cleaning
- Disinfection

Technical User Information:

- Weight: 80 g
- Dimensions: 40 x 12 cm
- Color: white, red
- Working material (color): 90% polyester, 10% polypropylene (white/red)
- Equipment: with textile bag

MultiSicuro PW

Reusable mop made & processed in Germany.

Benefits

- Reusable mop with the weight advantage of a disposable mop
- Autoclavable up to 50 preparation cycles, disinfectant-resistant, gamma-ray-resistant
- High area output due to storage material
- Minimal own particle release
- Very high-quality, clean room-suitable processing
- Ready to use pre-washed
- IPA certification "Tested Device"

Technical User Information:

- Weight: 60 g
- Dimensions: 40 x 12 cm
- Color: white
- Working material (color): 100% polyester (white)
- Equipment: White EB on the pockets, pre-washed at 90 °C

Classic mop

Cotton mop in different sizes for large areas.

Benefits

- Wet and dry cleaning of large cleaning areas, e.g. B. Gyms

Technical User Information:

- Material: 60% cotton, 40% polyester

**Clino® One Way Ultra Mini PW(/I)**

Small disposable mop for cleaning insulators.

Benefits

- Small wiper cover for hard-to-reach places

Technical User Information:

- Weight: 7.5 g
- Dimensions: 19 x 7 cm
- Material: Working material: 70% polyester (microfiber), 30% polyester (white), holding system: 70% polyester (microfiber), 30% polyester (white)

**Clino® OneWay Ultra Sword PW**

Disposable cover for the clean room sword CR/A.

Benefits

- Cleaning of hard-to-reach areas
- Autoclaveable, disinfectant resistant

Technical User Information:

- Weight: 26 g
- Dimensions: 50 x 4 cm
- Color: white
- Material: Working material: 70% polyester (microfiber), 30% polyester (white), loop 100% polypropylene

Clino® OneWay Ultra Sword PW/I

Gamma-irradiated disposable cover for the clean room sword CR/A.

Benefits

- Cleaning of hard-to-reach areas
- Autoclaveable, disinfectant resistant

Technical User Information:

- Weight: 26 g
- Dimensions: 50 x 4 cm
- Color: white
- Material: Working material: 70% polyester (microfiber), 30% polyester (white), loop 100% polypropylene

Disposable mop OneClean Assist

Pocket mop adapter with Velcro strips made of microfiber.

Benefits

- Cloth mop adapter for the disposable mop with Velcro strips OneClean Basic
- Suitable in combination for conventional 40 cm mop holders
- Backlining for improved water storage and optimized contact surface
- Easy attachment and removal of the disposable mop

Technical User Information:

- Weight: 60 g
- Dimensions: 43 x 12 cm
- Color: white
- Material: 100% polyester (white)

**Disposable mop OneClean Basic**

Disposable mop with Velcro strips made of microfiber for a convincing cleaning and surface result.

Benefits

- Cleaning and disinfection of structured and smooth floors
- Consistent absorption and delivery of cleaning and disinfection solution
- Ultrasonically cut edges
- Suitable for Velcro mop holders
- In combination with the pocket mop adapter OneClean Assist also suitable for conventional 40 cm mop holders

Technical User Information:

- Weight: 11 g
- Dimensions: 43 x 12 cm
- Color: yellow, green
- Material: 70% polyethylene, 25% polypropylene, 5% polyamide (white)

**MicroPad Abrado**

Sustainable sponge alternative: The durable MicroPad Abrado.

Benefits

- Can be washed and used longer than a conventional sponge
- Bottom side for loosening encrustation with simultaneous dirt absorption
- Top side for excellent cleaning performance and very good dirt absorption
- Available in the 4-color system

Technical User Information:

- Weight: 26 g
- Dimensions: 9.5 x 14 cm
- Material: Working material Strip: 48% polyester, 44% polypropylene, 8% polyamide, working material smooth: 80% polyester, 20% polyamide

MicroSicuro CR/A mop for wall cleaning device

Special mop for wall cleaning Made in Germany.

Benefits

- Cleaning of walls, ceilings and hard-to-reach areas
- Autoclaveable, disinfectant resistant

Technical User Information:

- Weight: 50 g
- Dimensions: 40 x 12 cm
- Color: white, blue
- Material: Working material: 100% polyester (white/blue), button: nickel-plated brass, Ø 13 mm, rubber loop

Mops for flexible holders

Mops for flexible holders for dry and spray cleaning of hard-to-reach surfaces.

Benefits

- Makes it easier to clean up hard-to-reach surfaces
- Dry and spray cleaning

Technical User Information:

- Material: Variable depending on the article

**Mop for hand pad holder**

Powerful Velcro mop for use with hand pad holder.

Benefits

- Suitable for all common pad holders

Technical User Information:

- Dimension: 25 cm
- Material: Variable depending on the article

**MicroSicuro reversible glove**

Reversible glove with the best material quality and state-of-the-art fiber mixtures made in Germany.

Benefits

- Wet cleaning of even adhering dirt

Technical User Information:

- Material: 100% polyester (white/blue)

Pre-wetted Mops:

SatPax®670 Pre-Wetted Mop Wipers

- 55% cellulose / 45% polyester hydroentangled nonwoven blend
- No chemical binders in base material
- Pre-wetted with two saturations available: 70% IPA/ 30% DI Water to a high saturation level of 60% or,
- 50% IPA/ 50% DI Water to a high saturation level of 70%
- Re-sealable solvent resistant packaging
- Wipers in c-folded configuration for single withdrawal
- Designed for use in ISO Class 5 and higher cleanroom environments and USP <797> applications.
- Designed for use in wet cleaning of critical surfaces where control of flammable solvents and flammable solvent concentrations is required
- Final cleaning of surfaces- walls, floors, ceilings or products prior to manufacturing or packaging
- High saturation level is ideal for removing cleaning and disinfecting residues in regulated environments
- Meets AMS 3819C requirements, Class 2, Grade A, Form 2

Inspec AN + 15 wipes in prep

Benefits

- A pre-diluted spin-on disinfectant wipe mixed with SFI grade water.
- Liquid disinfectant containing a mixture of quats disinfectant, chelating agents and surfactants.
- For hard clean room work surfaces.
- 100ml contains at least 2% w/w disinfectant formulation and 98ml water.
- Manufactured in ISO 6 environment and filled in ISO 5 airlock.
- The product is 0.2 micron filtered and filled into gamma sterilized bags.
- After that, the product was sealed and double wrapped.

Technical User Information:

- Z-folded 45% poly/55% cellulose cloth, 68g, 23x23cm
- Active ingredients:
- Bis(3-aminopropyl)dodecylpropane-1,3-diamine 1.4g/kg minimum.
- 2 years shelf life

InSpec AN + 15 wipes in prepreg

Benefits

- This polyester microfiber mop with non-woven media offers excellent absorbency and is designed for cleaning with disinfectants on horizontal and vertical surfaces.
- It is ideal for general cleaning and disinfection of ceilings, walls and floors in critical environments.
- Microfiber material glides smoothly over floors and textured surfaces for superior soil removal.
- Vertical surfaces and are ideal for general cleaning and disinfection of ceilings, walls and floors in critical environments.
- The microfiber material glides smoothly over floors and structured surfaces and removes dirt excellently.

Technical User Information:

- Material: polyester microfiber, nylon
- Color white
- Length: 398mm +/- 5mm
- Width: 122mm +/- 5mm
- Sterile
- Absorption capacity: >305 ml/mop (>6280 ml/m²)
- Particle: IEST-RPcc003.2 Helke
- Drum test <3500 particles per mop >0.5 µm
- Weight: 900g (+/- 0.045)

InSpec HA Burstable Mop

Benefits

- This polyester microfiber mop with non-woven media offers excellent absorbency and is designed for cleaning with disinfectants on horizontal and vertical surfaces.
- It is ideal for general cleaning and disinfection of ceilings, walls and floors in critical environments.
- Microfiber material glides smoothly over floors and textured surfaces for superior soil removal.
- Vertical surfaces and are ideal for general cleaning and disinfection of ceilings, walls and floors in critical environments.
- The microfiber material glides smoothly over floors and structured surfaces and removes dirt excellently.

Technical User Information:

- Material: polyester microfiber, nylon
- Color white
- Length: 398mm +/- 5mm

- Drum test <3500 particles per mop >0.5 µm
- Weight: 900g (+/- 0.045)

InSpec OX disinfection wipes

Benefits

- InSpec OX is a sterile sporicidal disinfectant in a pre-diluted form made from peracetic acid, hydrogen peroxide and ultrapure water.
- The preparation can be used to wipe equipment and hard surfaces (floors, walls and ceilings).
- InSpec OX is manufactured according to GMP standards in an ISO 6 clean room.
- The sporicide is filled and capped under an ISO Class 5 laminar flow.
- The solution is aseptically filled into sterile packaging through a 0.2 µm filter.
- The prepreg pouches are sterile sporicidal burstable wipes.
- For hard clean room work surfaces.
- 100ml contains approximately 0.4ml peracetic acid, 6ml hydrogen peroxide, 5ml acetic acid formulation and 88.6ml distilled water.

Technical User Information:

- Active ingredient: solution of 0.4% peracetic acid (PAA), 6% hydrogen peroxide (H₂O₂) and ultrapure water
- GMP A/B
- One of the most effective known sporicides
- Bactericidal and fungicidal (fungicidal), EN 1276, EN 1650, EN 13697
- Shows sporenicidal effect according to EN 13704 for Bacillus 5 minutes
- Double wrapped
- Ideal in rotation with InSpec AN and InSpec QT
- Manufactured according to GMP
- Fast action (5 log reduction of spores in 90 seconds. Acts on all microorganisms (very broad spectrum of action)
- Very low residue when drying
- Classified as irritant, low hazard
- Stabilized solution - 24 months shelf life

InSpec OX disinfection Mop Covers

Benefits

- This polyester microfiber mop with non-woven media offers excellent absorbency and is designed for cleaning with disinfectants on horizontal and vertical surfaces.
- It is ideal for general cleaning and disinfection of ceilings, walls and floors in critical environments. Microfiber material glides smoothly over floors and textured surfaces for superior soil removal.

Denaturated Ethanol 70% v/v blended wipes with WFI quality water

Benefits

- Non-Sterile InSpec DE Pouch Wipes are a high specification, low linting cleanroom wipes in a pouch.
- DE Standard Pouch Wipes.
- Available as 15 or 50 wipes per pouch (55% cellulose; 45% polyester).
- Wipe dimension: 230mm x 230mm (9" x 9").

Technical User Information:

- InSpec DE wipes are non-sterile ready to use disinfectant.
- This is a 70% v/v alcohol solution in WFI quality water.
- Non-Sterile InSpec DE wipes are manufactured to GMP in a cleanroom.
- The solution is filtered through a 0.2 micron filter
- InSpec DE is supplied with Certificates of Conformity and Analysis
- All formats of DE have a stabilised 24 month shelf life.

Denaturated Ethanol 70% v/v blended Tub wipes with WFI quality water

Benefits

- InSpec DE Tub Wipes, an economical solution for wiping applications.
- DE Standard Tub Wipe.
- Wipes per tub: 200 x 23g cellulose.
- Dimensions of the wipe: 200mm x 200mm.
- DE Premium Tub Wipe.
- Wipes per tub: 130 x 45g Polycellulose.
- Dimensions of the wipe: 200mm x 185mm.

Technical User Information:

- InSpec DE wipes are non-sterile ready to use disinfectant.
- This is a 70% v/v alcohol solution in WFI quality water.
- Non-Sterile InSpec DE wipes are manufactured to GMP in a cleanroom.
- The solution is filtered through a 0.2 micron filter
- InSpec DE is supplied with Certificates of Conformity and Analysis
- All formats of DE have a stabilised 24 month shelf life.

Denaturated Ethanol 70% v/v blended Mop Cover with WFI quality water

Benefits

- Polyester microfiber mops soaked in denatured ethanol 70% v/v.
- InSpec mops are designed for use with disinfectant on both horizontal and vertical surfaces and are ideal for general cleaning and disinfecting of ceilings, walls and floors in critical environments.
- The microfiber material glides smoothly over floors and structured surfaces and removes dirt excellently.

Technical User Information:
